

SECUREEMR+

A Partnership Solution by  INMEDIATA and  prognosis

11

TOP REASONS WHY YOU SHOULD ACQUIRE SECUREEMR+

- + Award Winning and Highly Rated Best in KLAS EMRs - Deployed in all 50 States and Puerto Rico.
- + CCHIT & ONC - ATCB Certified with 5 Star Usability Rating.
- + Not a "One Size Fits All" Software - Totally customized databases for every medical specialty.
- + Fully integrated modular design to achieve complete clinic automation - Scheduling, Insurance Eligibility, Document Management, Clinical Documentation of Patient visit and Electronic Billing.
- + Fully Interoperable with hospital systems, pharmacies, billing clearinghouses, HIEs, and government health agencies.
- + Arguably the easiest EMR to learn and adopt because of its structured platform that's both friendly and intuitive.
- + Super simple to customize to match your unique patient workflow and favorite way of charting - HPI Specific templates, voice and hand writing recognition.
- + Web/Cloud Based of Client Server deployment with autosync capabilities when working offline.
- + Available anytime, anywhere, on any device - PC, Mac, iPad, iPhone and other popular tablets.
- + 24/7 Support via Phone or Web - With local software trainers and IT Techs in the island.
- + Telemedicine Module incorporated.

Data Transfer

Please be advised that we can easily transition all data and scanned documents from your current EMR if we received the info below:

Patient Demographics - We can import the patient demographics if we can get a file in either HL7 Format or Excel, CSV Format. *Note: Getting this file from the Billing System is preferred.*

Patient Insurance Import - We can import the patient demographics if we can get a file in either HL7 Format or Excel, CSV Format. *Note: Master insurance file should also be provided by clinic in order to import patient insurance.*

Clinic Appointment List - We can import the clinics current appointment list if we get a file in either HL7 Format or Excel, CSV Format.

CCD File - We can import clinical data for Patients, if we can receive in CCD file format from their OLD EMR. They can request their OLD EMR to provide CCD files for all Patients in one folder and download in their computer. We can add their computer to our remote access and pickup file folder and process the same in their database. CCD file format is universal standard format.

Below are the CCD import standards supported in SecureEMR+

ONC Certification Edition	CCD Export Test Case Std. Requirements (Ambulatory Only)	CCD/CCR Import Test Case Std. Requirements (Both Ambulatory and Inpatient)
2011	CCD 1.0	CCD 1.0, CCR
2014	C-CDA 1.1	C-CDA 1.1, CCD 1.0, CCR
2015	C-CDA 2.1	C-CDA 2.1, C-CDA 1.1
